OBJECTIVE

A result-driven, AI & Data Science Engineering graduate with a strong foundation in Python, Machine Learning, and Data Analytics. Eager to leverage technical expertise and leadership skills to drive business growth and operational efficiency in any company.

EDUCATION

B.E IN ARTIFICIAL INTELLIGENCE AND DATA SCIENCE ENGINEERING -2022-2026

Datta Meghe College of Engineering, Airoli.
Aggregate CGPA : 8.14

HSC -2022

K.P.C. Junior College of Khargar.
Percentage: 60.50

SSC -2020

M.G.M. High School, Nerul.
Percentage: 94

SKILLS

Technical Skills: Languages: Python, C, SQL
Machine Learning: Regression, Classification, Clustering, Model Optimization
Deep Learning: NLP
Data Analytics: Pandas, NumPy, EDA, Statistical Analysis
Visualization: Power BI, Matplotlib, Seaborn, Dashboard development
Deployment: Streamlit, Flask, FastAPI, REST APIs
Tools: Git, GitHub, Jupyter Notebook, Google Colab, VS Code
Microsoft Office Suite: Microsoft PowerPoint, Microsoft Word

Soft Skills: Team initiation, coordination, collaboration and Communication, Problem-solving, Leadership, Adaptability, Project design, Research & Reporting, Documentation.

PROJECTS

Farm Fusion

- Developed an ML-based smart farming system for crop recommendation and yield prediction using Python and Fast API.

Chatbot

- Developed a secure Python-based conversational chatbot to efficiently handle user queries with a focus on implementation, testing, and user interaction design.

Rays Medico: Medical Report Analysis

- Developed an ML-based healthcare website for cancer, heart and Parkinson's disease prediction and medical report analysis using Flask.

•

COURSES AND INTERSHIPS

- Accenture Data Analytics and Visualization Job Simulation – worked on real business datasets, created dashboards.
- Microsoft Power BI Workshop – data visualization
- Q-spiders: Data Analytics

EXTRA - CURRICULAR ACTIVITIES

- Sports Head, SHAIDS Committee– Leadership & teamwork.
- Member, WEDEFY Dance Crew – Coordination & adaptability.
